# Liam Hockley

Front End Developer

I live and breathe code. Personable and down to earth, I thrive in a collaborative environment. I am a strong team-player and active learner, who loves to share ideas, learn from, and assist my peers. I find enjoyment in solving code problems in the cleanest and most elegant ways.

## EXPERIENCE

### Maintainer

Drupal Decoupled Menus Initiative Jul 2020 Present

- Facilitate and document regular meetings with fellow maintainers and contributors.
- Manage issues, encourage and participate in discussion.

### Full Stack Web Developer

Sycamore Education Feb 2016 - Jun 2020

- Built and maintained a feature-rich School Management System SaaS product. Used PHP, Ruby on Rails, and JavaScript (Vue).
- Eliminated development hosting costs by facilitating a local Docker based development environment.
- Improved support efficiency and customer satisfaction by implementing integrations with Freshdesk and Freshchat.
- Part of an Agile (SCRUM) team of six developers.
- Participated in daily code reviews in a Git based workflow.

### Computer Science Peer Tutor

Wayne State College May 2013 - May 2016

- Guided students through computer science courses, ensuring they completed with a passing grade.
- Worked closely with professors to offer individualized support for regular students
- Sat in as an assistant during general education courses, in order to assist students during class.
- Held workshops in order to help multiple students at once.
- Attended tutor training sessions twice per semester, covering topics such as "Helping Students who Suffer from Anxiety" and discussed how to market peer tutoring services to students on campus.

### Co-Founder / Full Stack Developer

Potent Studios Feb 2012 - Jul 2013

- Co-Founded a Freelance Web Development agency, along with a high-achieving university colleague.
- Collaborated with local business leaders to build a WordPress site that facilited local career fairs.
- Held weekly meetings to consult with clients, clarifying project goals and timelines.
